Chairperson's Opening Address

- 8.40 - DLA Logistics Vision
Lieutenant General Kathleen M. Gainey, Director for Logistics, J-4, THE JOINT STAFF
Beyond Joint Logistics: Multinational And Interagency Logistics

9.15 - Executive Presentation

- John Schneider, Senior Vice President, Aerospace and Government Markets, New Breed Logistics

John has over 25 years of experience in the Aerospace and Defense industries in the areas of program management, logistics/supply chain, maintenance/repair/overhaul, strategic planning, large system implementation, business development, and six sigma/lean. He serves as Sr. Vice President for New Breed's Aerospace and Defense division. During his tenure with New Breed he was instrumental in structuring and leading New Breed Logistics' aerospace, defense, and government services business segment. He was instrumental in capturing and implementing Boeing 787 Production Support, Sikorsky Production Support, the C17 and Sikorsky spares 3PL programs and most recently the Boeing San Antonio maintenance, modifications and upgrades support program for the C17, KC135, KC10, and C130. John's experience includes providing tailored support solutions for commercial/military aircraft and ground systems.

Enterprise Partnership Provides Maximum Results For The Warfighter

12.20 - Defense-Logistics Integrated-Digital-Environments(IDE), The New Paradigm For

- Sustainment Success

Tim Nichols, Vice President, A&D Global Sector, Siemens/PLM Software

Significant improvement in performance-based fleet metrics requires a quantum leap forward in availability, reliability, overhaul cycle reduction and total cost of ownership. To achieve the necessary improvements in these critical parameters in a global service enterprise, OEMs and defense service organizations are migrating to a enterprise lifecycle platform that captures, manages, coordinates and synchronizing the seamless and secure flow of knowledge across the complete value stream and lifecycle. Tim Nichols is responsible for coordinating the efforts of a worldwide crossfunctional sector that is dedicated to the Global Aerospace & Defense Industry for commercial and defense systems and platforms and related government agencies across the globe. Tim has 30+ years of experience in aerospace and defense with several major A&D OEMs: GE, Lockheed Martin, CSC, and Honeywell...spanning product management, program management, marketing, and new business development...including 9 years of active duty with the US Navy.
