

Human Performance & Biosystems Summit

Sept. 30 - Oct. 1 | Washington, DC

Sponsor & Exhibitor Prospectus

DSI's Human Performance and Biosystems Summit will focus on opportunities to improve training as well as efforts to augment human systems through advanced machine-human interfaces in order to improve warfighter capabilities.

Maintaining an asymmetric advantage in operational environments is a key priority for the DoD, particularly as the current threat landscape continues to evolve at a rapid pace. The advent of biotechnology poses an opportunity for the DoD to grow and maintain this advantage through the development of optimized warfighter systems and augmented human performance. It is critical that DoD works to develop true synchronization between hardware, software, and human elements of warfighter systems leading to optimized performance across DoD while minimizing harm and cost to the human component.

At DSI, we consider our sponsors as our partners.

Our goal is to provide you with an experience that is custom designed to meet your organization's goals. To this end, we value your input and expertise and will work closely with you to create a sponsorship campaign that is tailor made for your business needs.
