

DoD Information Warfare Symposium

March 24-25, 2021

Sponsor & Exhibitor Prospectus

DSI's Information Warfare Symposium is designed as an educational and training "Town Hall" forum, where thought leaders and key policy-makers across military services, government agencies, acquisition authorities, academia & industry will be brought together for actionable discussions and debate on how to further electronic warfare and cyber operations for the future military mission. The Information Warfare Symposium will focus on initiatives to provide the mission integration of IW at the operational and tactical levels. It will detail how EW & Cyber will enable the Warfighter to be combat-ready in contested information environments and assist in their understanding of where persistent adversaries are operating, all in an effort to ensure a more lethal force and deny the enemy the ability to control the spectrum.

DSI's team specializes in the extensive research and development of our Symposiums' content and focus areas. We assemble the most respected minds in the information warfare community, as well as the key policy-makers across military and civilian offices. Our non-partisan approach allows us to reach across all services and organizations to bring together a truly holistic group of decision-makers and solution-providers.

At DSI, we consider our sponsors as our partners. Our goal is to provide you with an experience that is custom designed to meet your organization's goals. To this end, we value your input and expertise and will work closely with you to create a sponsorship campaign that is tailor made for your business needs.
