

Military Virtual Training & Simulation Summit

The **4th Annual Military Virtual Training & Simulation Summit** will provide a forum for members of the DoD, DHS, Private Industry, Academia and other relevant stakeholders to discuss the current and future direction and utilization of virtual training & simulation technologies throughout the Military Services. The Summit will focus on the efforts to leverage M&S technologies across the Military in order to increase warfighter readiness and help train for future multi-domain operations.

DSI's 2021 Military VT&S Summit will emphasize the use of VT&S to improve warfighter readiness while at the same time increasing safety and reducing cost. Virtual training tools will allow the soldiers and marines to fight multiple battles before they see the real thing, pilots to fly and training missions without the risk of a crash, and sailors to hone their skills without having to be a sea. These changes will produce and more ready US fighting force prepared for any mission across the globe.

At DSI, we consider our sponsors as our partners. Our goal is to provide you with an experience that is custom designed to meet your organization's goals. To this end, we value your input and expertise and will work closely with you to create a sponsorship campaign that is tailor made for your business needs.
