

Joint C2 Summit

DSI's Joint C2 Summit is a 'Town-Hall' style discussion that will bring together members of the DoD, Military Services, Allied Nations, Industry, & Academia to focus on evolving current command and control systems for joint multi / all domain operations with a focus on the people, processes, authorities and technologies needed to field a meaningful and robust unified network supporting the future of C2 in a data-dependent and data-saturated world.

As the character of warfare changes, so too must the art and capabilities of C2. Victory will belong to the side with decision superiority where commanders sense, make sense, understand, decide, act, and assess faster and more effectively than their adversaries.

Evolving the training, governance, authorities and leveraging emerging technologies will be key to DoD's fully networked modernization approach that allows Joint All-Domain Operations for a more lethal Joint Force

At DSI, we consider our sponsors as our partners. Our goal is to provide you with an experience that is custom designed to meet your organization's goals. To this end, we value your input and expertise and will work closely with you to create a sponsorship campaign that is tailor made for your business needs.
