| 09:00 | Analysing Changing Trends in Strategic and Tactical Military Airlift Operations in APAC  | • Understanding the market opportunity and development for military airlift requirements in the region  
• Analysing the importance of multi-role platforms to support both strategic and tactical airlift operations in APAC  
• Reviewing the latest technological innovations in military aerial logistics and applicability to APAC requirements  
• Procurement of new aircraft vs MRO and upgrades: Which are more likely in APAC?  
Ridzwan Rahmat  
Senior Reporter, Aerospace, Defence and Security, IHS Janes |
| 09:40 | Industry Spotlight: Technological Innovations and Cost-Effective Airlift Capabilities for the APAC Region |                                                                               |
| 10:20 | Delivering Strategic and Tactical Mission Objectives through the C-17A and C-130J Platforms: Lessons Learnt from Missions in Afghanistan and SAR Operations | • Understanding how the Air Mobility Group in the RAAF has utilised both the C-17A and C-130J aircraft to successfully execute strategic and tactical airlift operations  
• Configuring the C-17A to allow the RAAF to flexibly deploy troops, heavy equipment, combat vehicles and supplies all over the world  
• Lessons learnt so far from disaster relief and humanitarian operations- How has the C-17A and C-130J performed against mission requirements?  
Wing Commander Dean Bolton  
Executive Officer, 86th Wing, Air Mobility Group, Royal Australian Air Force |
| 11:00 | SPEED NETWORKING                                                                 |                                                                               |
| 11:10 | MORNING TEA & COFFEE BREAK                                                      |                                                                               |
| 11:40 | Strengthening the Philippine Air Force’s Airlift Operations through Strategic Avionics System Upgrades | • Ensuring that the PAF remains operationally ready to deal with HADR operations  
• Enhancing tactical airlift operations through strategic avionics system upgrades for its current C130 fleet  
• Highlighting the importance of roll-on, roll off technology to ensure operational flexibility  
Brigadier General Stephen P Parreño AFP  
Wing Commander, 220th Airlift Wing, Philippine Air Force |
| 12:20 | LUNCH & NETWORKING                                                              |                                                                               |
| 13:20 | Interactive Discussion Groups – 3 Rotations @ 40 Minutes each                    | During this part of the conference, delegates will get the opportunity to participate in 3 topics of their choice. Discussion groups are deliberately kept small to ensure that all delegates get the opportunity to ask their most pressing questions, thereby guaranteeing a perfectly tailored experience.  
|       | ROUNDTABLE A: Multi-Role Capabilities Platform: Can You Do More with Less?       | Colonel Tan Chee Kee  
Air Operations, Royal Malaysian Air Force |
|       | ROUNDTABLE B: Upgrade or Procure? Which Strategy and Acquisition Plan to Select? |                                                                               |
CONFERENCE DAY ONE
Tuesday, 27th November 2018

ROUNDTABLE C:
Air-to-Air Refueling Capabilities for APAC Air Forces- Overcoming Challenges in Standards and Data

ROUNDTABLE D:
Best Practices in Humanitarian Assistance and Disaster Relief Operations

Colonel Federico B Enriquez PAF (MNSA)
Director for Operations, 220th Airlift Wing, Philippine Air Force

ROUNDTABLE E:
Can Maritime Patrol and Airlift Operations Go Hand-in-Hand?

Wing Commander Dean Bolton
Executive Officer, 86th Wing, Air Mobility Group, Royal Australian Air Force

ROUNDTABLE F:
Modernising Your Airlift Capabilities: What You Need to Consider in APAC

Colonel Dedy Gahazy
Commanding Officer, C170 Squadron, Indonesian Air Force

15:20  AFTERNOON TEA & NETWORKING BREAK

PERSPECTIVES FROM SOUTHEAST ASIAN AIRLIFT AND AIR-TO-AIR REFUELLING OPERATIONS

15:50  Meeting Domestic Airlift Requirements in Indonesia: Changing Operations for the Indonesian Air Force

• Overview of changing operational requirements for airlift: Moving from standard military missions to fulfilling the air bridge vision in Indonesia

16:30  Managing Existing and Legacy Assets in a Rapidly Changing Environment: The RMAF Perspective

Lt. General Dato Sri’ Hj Abdul Mutalib bin Datuk Hj Ab Wahab
Air Operations Commander, Royal Malaysian Air Force

17:10  Chairman’s Closing Remarks

17:20  CLOSE OF CONFERENCE DAY 1
08:00  REGISTRATION & WELCOME COFFEE

08:50  Opening Remarks by Conference Chairman

Effective Operational Reach and Response through Modular, Flexible Platform Configurations

09:00  Understanding the Evolution of Military Airlift Operations and How it Shapes APAC Requirements Today

Ben Ho
Associate Research Fellow, Military Studies Programme, RSIS

09:40  Bridging the Gap Between Airlift Requirements and Air Mobility Roles in APAC

• What are the biggest drivers and operational requirements for Air Forces in APAC?
• How do Air Forces prioritise between strategic and tactical requirements and operations?
• Is there a one-size fit all platforms that can meet all requirements?
• Can Air Mobility functions take on multi-mission roles including ISR and surveillance?

Wing Commander Dean Bolton
Executive Officer, 86th Wing, Air Mobility Group, Royal Australian Air Force

Lt. General Dato Sri’ Hj Abdul Mutalib bin Datuk Hj Ab Wahab
Air Operations Commander, Royal Malaysian Air Force

Air Vice Marshall Fajar Prasetyo
Commander, Operational Command 2, Indonesian Air Force

Brigadier General Stephen P Parreño AFP
Wing Commander, 220th Airlift Wing, Philippine Air Force

10:20  Industry Spotlight: Next Generation Multi-Role Airlift and Tanker Fleet

11:00  SPEED NETWORKING

11:10  MORNING TEA & COFFEE BREAK

11:40  Enabling Tactical Troop Deployment and Air Evacuation in the Marawi Crisis through Flexible Modular Configurations

• Strategic overview of the biggest air evacuation of the Marawi Crisis in the Philippines
• Enabling air evacuation operations through immediate aero-medical outfitting and strategic flight planning
• Overcoming challenges in maintaining sterile cockpit environments and cargo and personnel contamination
• Successfully enabling tactical operations between troop deployment and aero-medical requirements

Colonel Federico B Enriquez PAF (MNSA)
Director for Operations, 220th Airlift Wing, Philippine Air Force

12:20  Navigating the Best Solution to Meet New Zealand’s Strategic and Tactical Airlift Operations and Requirements from 2020 Onwards

• Overview of the current airlift capabilities and upcoming upgrade planes to meet strategic and tactical airlift requirements
• Examining the role of multi-role platforms: Can one platform cover both strategic and tactical airlift as well as maritime patrol operations?
• Working with bilateral partners to complement assets and systems for optimal operational success
• Lessons learnt from expanding scope of tactical airlift operations: Focus on humanitarian assistance missions in the Pacific

Air Vice-Marshall Andrew Clark
Chief of Air Force, Royal New Zealand Air Force (Invited)

13:00  LUNCH AND NETWORKING

14:00  Lessons Learnt from Joint Efforts in Humanitarian Assistance Missions between the USAF and the Sri Lankan Air Force

• Effective tactical air lift operations in the face of natural disasters
• Analysing the importance of joint-efforts and interoperability between the USAF and the Sri Lankan Air Force
### AAR Capabilities in APAC

**Panellists:**
- Wing Commander Dean Bolton  
  Executive Officer, 86th Wing, Air Mobility Group,  
  Royal Australian Air Force
- Lt. General Dato Sri’ Hj Abdul Mutalib bin Datuk Hj Ab Wahab  
  Air Operations Commander,  
  Royal Malaysian Air Force
- Air Vice Marshall Fajar Prasetyo  
  Commander, Operational Command 2,  
  Indonesian Air Force
- Brigadier General Stephen P Parreño AFP  
  Wing Commander, 220th Airlift Wing,  
  Philippine Air Force

**Chairman’s Closing Remarks and End of Conference**
